

EL RANCHO DE LA VIDA (THE RANCH OF LIFE) - substance use disorder residential treatment agency and facility in Hinckley, ME <https://www.erdlv.org/>

We are a non-profit substance use disorder residential treatment agency and facility, as well as a recovery house located in Hinckley, Maine on the Good Will Hinckley Campus. We opened in March of 2020 just before all of our lives were changed forever by Covid-19.

I wanted to reach out to Somerset county to establish us as a partner helping others. We would like to be listed on your website as a non-profit recovery facility, as well as being here for questions or help with anything we can do to help the individuals of Somerset county. We have plans to open more recovery houses here and partner with local providers to open and run an IOP (Intensive outpatient) facility and a 28-day inpatient detox facility as well.

Our Vision

El Rancho De La Vida imagines a world where anyone struggling with addiction can have hope, a pathway to recovery, and realization of their vast human potential.

Our Mission

We provide safe spaces for those standing up to addiction by providing tools, avenues to recovery, and by supporting and inspiring the human spirit.
